

Dear Parent/Guardian

ANNUAL SCHOOL-BASED HEALTH SCREENING IN PRIMARY SCHOOLS

- 1 The Health Promotion Board's School Health Service will be visiting your child's school to conduct annual health screening. During this visit, the School Health Service team will need all relevant past and current medical information about your child, and your consent to administer immunisation, where indicated.
- 2 If your child has any medical conditions, please inform us so that we can update his/her medical records. Please forward the documents to your child's form teacher before the School Health Service team's visit. Any information which you provide, as well as results and follow-up activities from the health screening will be kept confidential and will only be shared with the relevant school authorities and other healthcare providers. For this purpose, the information may be placed on a database known as the Electronic Medical Records (EMR) System and the National Electronic Health Records (NEHR). The information may also be collated and used for national public health policy planning, ethically approved research, official reports and publications. Full confidentiality is ensured, i.e. your child's identity will not be revealed.
- 3 You can access your child's Health Assessment Summary (HAS) at www.HealthHub.sg. Simply login to MyHealth with your SingPass and enter your child's birth certificate number. His/Her records are linked to your account.
- 4 If you are unable to access and print your child's HAS, please contact HPB's School Health Service via email at HPB_Mailbox@hpb.gov.sg or call 6435 3537/3940.
- 5 Please keep all records for future reference, as your child may be required to submit his/her medical or immunisation records for admission into foreign schools or universities.
- 6 For parents of Primary 1 and Primary 5 pupils, you will receive an information booklet on health screening in school.
- 7 As the annual health screening conducted by the School Health Service only screens for specific health conditions, please seek medical attention if in doubt of your child's well-being.
- 8 The School Health Service is committed to providing quality healthcare for the health and well-being among our school children.

You may log in to the online portal via <https://childconsent.hpb.gov.sg> using your SingPass.
